SEAADE 2023

34th Annual Scientific Conference

Co-Creating Dental Education for Tomorrow
Building Capacities, Communities and Collaborations

Oral and Poster Presentations

The Oral and Poster Presentations provide a platform for dental educators to interact with like-minded peers, exchange ideas and inspire one another to transform dental education. Attractive prizes await the top presentations.

Oral Presentations: *Presenters will be given 10 minutes to deliver their presentations. This will be followed by a 5-minute Question-and-Answer session from a panel of judges and the audience.*

Poster Presentations: *Presenters will be given 5 minutes to share their presentation. This will be followed by a 5-minute Question-and-Answer session from a panel of judges.*

There will be three themes for the dental educators to share their research, experiences and best practices around various aspects of dental education.

Theme 1: **Peaks of Excellence in Teaching and Learning**	Theme 2: **Future Proofing Dental Graduates of Tomorrow**	Theme 3: **Capacity Building of Dental Educators**
Presenters can share how they have developed or adopted innovative ideas to engage their students during the pre-clinical or clinical aspects of dental education. The use of technology to enhance the teaching and learning can also be shared under this theme. Apart from teaching and learning, the planning, design and use of effective assessment methods, including simulation, to determine students' understanding and ability to apply such knowledge in the clinical setting can be shared under this theme.	*Presenters can share how they have future-proofed their dental curricula to ensure graduates are ready to assume their clinical roles competently and confidently amidst the changing population demographics and healthcare landscape. Best practices and ideas around equipping students with patient management skills and inculcating values such as empathy and professionalism through dental education are welcome under this theme.*	*Beyond dental students, there is a need to focus on building the capacities of dental educators too. With this theme, presenters can share their initiatives and experiences in building up the confidence, competence and skills of fellow educators to deliver high quality dental education.*

Terms and Conditions:

a. Abstract submission opens from 17 Jul 2023 (Details on the link to submit the abstracts will be provided then).
b. The deadline for abstract submission will be 15 Sep 2023.
c. All abstracts must be submitted by a Main Presenter who will deliver the oral or poster presentation if it is shortlisted for the Annual Scientific Meeting. There can be Collaborators listed in the abstract and there is no limit to the number of Collaborators. (Collaborators refer to individuals who worked with the main presenter in the conduct of the research, programme or initiative presented.)
d. The final acceptance of the abstract for oral or poster presentation is subject to the full payment of Registration Fees for the Main Presenter.
e. The Scientific Committee reserves the right to decide on the final mode (oral or poster) presentation for shortlisted abstracts.
